DIFF	0.040	0.045	0.045
ASY	0.014	0.015	0.015

Radical is very excited to announce a new addition to the Top Shelf lineup, the **ZigZag**. We used our new core development system (originally used to develop the Outer Limits and the new Katana line) to predict core motion and dial in specific desired performance characteristics. Using this new program and the best coverstock in the industry HK22, we have created the **ZigZag**.
